An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: applicant has indicated in the 11/14/06 remarks that "Claims 2-3, 5, 10, 39 and 41 have been rewritten including all of the limitations of the base claim"; however it is noted that claim 10 lacks lines 13-15 of claim 1. Accordingly claim 10 has been amended to include same as follows.

10. (amended)A dual flush toilet system for selectively flushing solid waste or liquid waste: said dual flush toilet system comprising:

a water tank with a discharge opening on the bottom of said water tank for storing and receiving water;

a toilet bowl located below said water tank and connected to said water tank by said discharge opening;

a spud having an elongated upstanding body with a lower end secured on said discharge opening of said water tank;

a flush valve comprising a tubular element upstanding and extending above the water surface in said water tank and slidably engaged with said spud, a float chamber attached on the lower portion of said tubular element, and a ring attached at the upper portion of said tubular element;

Art Unit: 3751

engaging means connecting said flush valve and a support for engaging the movement of said flush valve to perform a full flush operation or a partial flush operation to flush wastes in said toilet bowl; and

a load device attached to float means for selectively engaging and applying a downward force on said flush valve in a flush operation, wherein said load device engages said flush valve with said float means for controlling the timing to push said flush valve downward to close said discharge opening and wherein said load device comprises adjustable means for adjusting the timing to apply a downward load to said flush valve.

The change to page 34, paragraph 4 of the specification has been approved.
